Education

University of Tehran — Tehran, Iran
Master of Science in Micro and Nano Electronic Devices — Expected 2028

– Currently in the first semester of graduate studies.

Urmia University — Urmia, Iran
Bachelor of Science in Electrical Engineering (Electronics) — Graduated: Feb 2026

Experience

Electronics Engineering Intern — Tehran / Urmia, Iran
Rahnema Ofogh — 3-Month Internship

- Assisted in the design and testing of embedded firmware for microcontroller-based control circuits.
- Interfaced analog and digital sensors with microcontrollers for real-time monitoring and data collection.
- Evaluated power electronics prototypes, troubleshooting signal noise and hardware integration issues on the bench.
- Collaborated with senior engineers to document hardware schematics and streamline testing procedures.

Professional Training & Certifications

Cisco Certified Network Associate (CCNA) — *In Progress*

- Comprehensive hands-on coursework covering network fundamentals, IP connectivity, and network access.
- Practical virtual lab experience configuring Cisco routers, switches, VLANs, and routing protocols.

Technical Skills

Networking & Protocols: Cisco IOS, Switch & Router Configuration, VLANs, Subnetting, IPv4/IPv6, TCP/IP, OSI Model
Hardware & Embedded Systems: Microcontrollers, Sensor Interfacing, Embedded C, Power Electronics Fundamentals
Programming & Operating Systems: Python, Bash Scripting, Linux (Ubuntu), Git
Web & Content Platforms: WordPress Administration
Core Competencies: Fast Learner, Deep Work Focus, Cross-Functional Team Collaboration
